February 19, 2013

Unlike some of my other ISO auditors during my last ISO audit **G-PMC LLC** gave me use full and pertinent feedback on our company. They really took the time to examine our entire company and facility to see us in real time. Unlike other ISO auditors **G-PMC LLC** really made us feel that the auditing process was a valuable one and not just a nail biting experience a company completes just to be recognized.

Sincerely,

Josh Nathel
