MODERN PLASTICS & GLASS, INC.

Dear Mr. Carbone;

I have just had the pleasure to speak to Mr. Daryl Guberman regarding technical information that I urgently needed.

I was fortunate enough to find your site on the internet and even more fortunate to speak to Mr. Guberman.

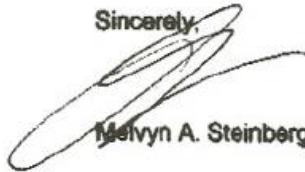

Our company was in desperate need for some arcane technical information. Although a total stranger, Mr. Guberman was not only extremely cordial, but he also cared enough to get me the exact information that was so desperately needed.

I cannot say enough about how appreciative I am and how fortunate you are to have such an outstanding person representing your company. His caring and interpersonal skills, combined with the speed with which he obtained the information was extremely notable.

He is truly a credit to your company and a most valuable resource.

Kudos to you for hiring him.

Sincerely,

Melvyn A. Steinberg, D.D.S.

← Thanks again, Daryl.
