Dear Daryl:

I want to express my gratitude towards you and your team for making the process more simplified for getting ISO 9001:2008 certified. I can't tell you how happy we are with your services then and your continued support now. I couldn't fathom another registrar going above and beyond as you did for Alco. Again, on behalf of Alco and myself we all thank you for your services and I look forward to working with years to come.

Sincerely

Michael Roache
