

Daryl Guberman- President
GUBERMAN-PMC,LLC.
1538 WEST BROAD ST.
Stratford, CT 06615

Lindquist Steels was recently awarded ISO 9001:2008 certifications for each of our locations nationwide. This accomplishment would have been very time consuming, labor intensive, confusing, and frustrating had we not partnered with Daryl Guberman.

Back in 1999 we began the ISO certification process with another consulting firm. The cost was more than double and the amount of time each and every employee had to devote to the process became counterproductive. The consultants and the amount of paperwork involved was crippling our ability to service our customers. We ceased our effort for certification.

As the credibility of ISO grew and the need for companies to be ISO certified we began the effort again. We carefully interviewed numerous consultants and decided to work with Guberman-PMC, LLC.

We could not have asked for anything more. Daryl Guberman has a strong understanding of all the various ISO requirements and best practices. Daryl took the time to listen carefully to how we conduct our business and how we needed an ISO certification to work for us and our customers. He is also very competitive on his fees and a great value and asset going forward for Lindquist.

Daryl tackled our certification process head on. He was attentive and guided us efficiently in an organized fashion through the entire process. There was not a moment during the time we worked with Daryl that we had to interrupt our daily business routine. This was completely opposite from our previous experience. He has also developed a unique and approved method as how best to manage the paperwork and record keeping. Daryl's system keeps everything at the minimum and efficient.

Together we managed to become certified in just about a month. The entire experience was excellent. Daryl works very hard for his clients and his experience with ISO runs deep. Lindquist Steels could not give a higher endorsement of Guberman-PMC, LLC.

Regards,
Taylor Hoyt
President , Lindquist Steels
