GUBERMAN-PMC,LLC.  
1538 WEST BROAD ST.  
Stratford, CT 06615

“Thank you so much for assisting us in receiving our ISO 9001:2008/ AS9100 Rev C, certification. Your help in implementation with our quality system was greatly appreciated. You made it pleasurable and took very little time away from shop activities to integrate documentation with the way we do business.

I have had many different registration companies send me literature and bombard me with phone calls and emails. These activities are quite bothersome. G-PMC,LLC does none of this! They are truly a great company and for a company my size 8 employees a very cost effective way to achieve and maintain certification with your help!

As a small business owner I have investigated the costs involved with getting registered. Approximately \$30K has been the numbers I have heard. Investigating this, I found the \$30K cost is not just stories but fact. You came to my door and displayed a very competitive pricing.

G-PMC,LLC and your great help have made Astro Aircom a better company, and with your support we will be even more successful. Unlike many registrars you are on the cutting edge by supporting us all the time. The others charge a lot of money and only come in annually without support. You are there willing and able to assist us anytime!”
